EDUCATION

International Institute of Professional Studies, DAVV, Indore
Information Technology

2022 – 2027 Integrated M.Tech in
CGPA: 7.33

PROFESSIONAL SUMMARY

Integrated M.Tech IT student and MERN stack enthusiast with knowledge of Java, JavaScript, React.js, Node.js, Express.js, MongoDB, MySQL, REST APIs, and Git. Passionate about building clean, responsive, and practical web applications.

SKILLS

Languages:	Java, JavaScript, SQL
Web Technologies:	HTML, CSS, React.js, Redux Toolkit, Tailwind CSS, Node.js, Express.js
Databases:	MongoDB, Mongoose, MySQL
Tools and Version Control:	Git, GitHub, Postman, VS Code
CS Core Concepts:	Data Structures and Algorithms, OOPs, DBMS, Operating Systems

PROJECTS

BuildMart – House Raw Material Marketplace

MERN Stack

- Developed a web application for browsing construction raw materials such as cement, bricks, tiles, steel, sand, and wood.
- Created user-friendly pages for product listings, vendor details, cart flow, and dashboard sections.
- Built and integrated REST APIs for product, vendor, cart, and order-related features.
- Used MongoDB and Mongoose for managing user, product, vendor, cart, and order data.

Tech Stack: React.js, Redux Toolkit, Node.js, Express.js, MongoDB, Mongoose, REST APIs, Git, Postman

CareerConnect – MERN Job Portal

MERN Stack

- Developed a role-based job portal for students, recruiters, and admin to manage job postings and applications.
- Implemented authentication and authorization using JWT for secure student and recruiter login.
- Built features such as job posting, job search, filtering, resume upload, job application, and application status tracking.
- Created dashboards for students to apply for jobs and recruiters to view applicants and update application status.

Tech Stack: React.js, Redux Toolkit, Node.js, Express.js, MongoDB, Mongoose, JWT, REST APIs, Git, Postman

COURSEWORK

Data Structures and Algorithms, Database Management System, Object-Oriented Programming, Operating System, Web Development

CERTIFICATIONS AND ACHIEVEMENTS

- Java Programming Certification – OSOP Coding Institute, Indore.
- Postman API Testing Certification.
- Familiar with Git commands like clone, commit, push, and basic version control workflow.
- Quick learner with good debugging skills and willingness to work on real-world internship projects.
